- Web Frameworks: Next.js, Vue.js, Angular, TypeScript, ASP. Net, XML, HTML5, CSS3
- Databases: PostgreSQL, MongoDB, MySQL ,SQL
- Control System: DevOps (Git), GitHub, gitLab
- Tools: .NET Visual Studio, Visual Code
- Web services: REST, SOAP
- Web Servers: Nginx, Apache
- Cloud: Azure,AWS

Education

03/2014 – 03/2019 Addis Ababa, Ethiopia	**Bachelor of science in Software Engineering** *Addis Ababa University*

Professional Experience

06/2022 – present Addis Ababa, Ethiopia	**Front-End Developer** *Kifiya financial technology* • A B2B E-commerce Admin Portal that contains portal applications in Next Js, an API in Java Spring Boot with Postgresql. • Utilized App Service and others. CI/CD deployment processes. • Implemented multiple Web APIs in different micro services • Designed and implemented several controlled features that can integrate in the system seamlessly. • By adding a well configured and designed DevOps CICD process I was able to make the release process smooth and simple for all three environments (development, staging and production).

02/2022 – present Blair Athol, Australia	**Full stack Developer** *Esoft Business Solutions & EZZI Software Pty Ltd*

- Responsible creating efficient design and develop UI using HTML, CSS3, Bootstrap, javascript, angular 6 and node js
- Worked in Agile CICD development approach.
- By adding a well configured and designed DevOps CICD process I was able to make the release process smooth on simple for all three environments (development, staging and production).
- Utilized Azure services like APIM, App Service, Azure SQL, and others. CI/CD deployment processes.

01/2021 – present Addis Ababa, Ethiopia	**Software developer** *Golden Eagles Technology PLC*

- Implemented multiple Web APIs in different micro services.
- Worked on React js Virtual Dom and react Views
- Responsible for CRUD operations integration with Backend
- Responsible for ReactUI and architecture building components library including Tress slide-view Table Grid
- I have designed and developed UI based Components to next js code using Tailwind css and material UI
- Developed City guide app using java and android studio
- Created non-technical descriptions of operations and workflow to enable noncoding team to function with minimal interruption.
- Worked with PM/IM to keep on track with the project plan, timeline, and billing. On average, this saved 4 days of communication per project.

03/2019 – 04/2020 Addis Ababa, Ethiopia	**Software Engineer** *Infra Net Technology PLC*

- Built and maintained desktop application that scaled to 100+ daily users, communicating with cross-functional teams regarding product and design
- Preparing accurate reports to document design flaws and bugs as well as modifying existing software or system to correct errors and improve performance
- create Client/Server Architecture with Security and work breakdown

04/2020 – 12/2020 Addis ababa, Ethiopia	**Web Developer** *Ingenious Computer Systems PLC*

- Gathered and analyzed the requirements and converted them into user requirements and Functional Requirements
- Involved in development of UI using HTML5/CSS3,JavaScript and jQuery
- Debug the application using Firebug to traverse the documents and manipulated
- The Nodes using DOM and DOM Functions
- Involved in Unit, Integration and system Test
